

Ultrasound Initiative Announcement

Grace House Pregnancy Resource Center is becoming a medical clinic to offer limited ultrasound to qualifying clients.

We have received a grant for ultrasound machines & a **5 day didactic & hands-on Sonogram training** by a national trainer.

We are seeking **Christian, pro-life medical professional** who wish to serve God by offering abortion alternatives to people in unplanned pregnancies.

We need:

- An MD to be our Medical Director (approve protocols, P&P's, then oversee & consult)
- An MD (radiologist or OB) to read the (digital) ultrasound scans sent via email
- RN's to volunteer as nurse sonographers/peer counselors (8+ hours per week)
- 2 ultrasound exam tables
- 2 flat screen TV's (32" or larger) clients can see their babies on
- Ultrasound related supplies

We will begin providing ultrasound at the centers in DeLand & Edgewater as soon as our Medical Team is assembled, our protocols are approved, & our RN's are trained.

- **The training time frames we can choose from are either the week of Feb 13th or the week of March 19th.**
- RN's interested should confirm commitment to **volunteering** & to this training & the week best for you **by January 1st.**

Please forward this information to other local MD's & RN's that may have a heart to offer abortion alternatives to women in unplanned pregnancies in our communities.

For more information, contact Donna Jensen at donna@gracehouseprc.org or 386-801-7118.
